**TURNING PRECISION INTO VALUE**

## Company profile

Strauss is a manufacturer of high quality electroplated and Vacuum brazed diamond & CBN tools since 1970. We are dedicated to developing new cutting edge products with the highest quality.

The company is - **ISO 9001:2000, ISO 14001, ISO 13485** certified.

## Background of the company

Founded in 1970 in Israel, Strauss sells today to over 50 countries via our global sales organization, which keeps track of the latest innovations, developments and materials in the cutting & grinding fields with super abrasives products.

"Strauss & Co." consists of 3 divisions:

- Industrial Diamond & CBN Tools - Tools for grinding, cutting, filing and polishing of a variety of metals and composite – files, pins and wheels.
- Dental Rotary Instruments – dental burs for dentists - multi use burs and pre-sterilized single use burs to suit every use.  
Our dental tools meet rule 93/42 EU and are FDA & CE certified.
- Vacuum Brazed Diamond & CBN Tools - production of custom made profile tools for the ceramics, metalworking and composite material markets.

## Tooling for matrix drill bits

Most recently, Strauss has been supplying tools to the Oil & Gas industries.

For this sector Strauss manufactures high Quality Diamond burs and reamers used in the production process of small to large diameter matrix drill bits.

## Technologies & products

Our tools offer superior performance both in quality of the grinding and in the lifetime of the burs to the current items in use in the PDC drill bits manufacturing process.

The burs are offered with a competitive pricing.
